BIOLOGY LAB

Specimens:

Jelly fish, Amabas, Pimus Male Cone, Pimus Female Cone, Earth Worm, Cockroach, Opuntia, Water Hyacinth, Hydra, Tape Worm, Leech, Hydrilla, Fern, Labeo Rohita, Silk Worm, Prawn, Ascaris Male, Starfish, Silk- moth Life cycle, Ascaris Female, Marchantia, Cockroach Life cycle, crab

SLIDES:

Mitosis, Meiosis, Non- Straited Muscles, Monocot root T.S, Monocot Stem T.S, Mammal Spinal Cord, Algae Oscillatoria, Cardiac Muscle, Striated Muscle, Dicot Stem T.S, Human Blood & Mear, Algae Spiro gyra, Squamous epithelium, Xylem Tissues, Aerolar Tissues, Phloem Tissues, Spirogyra

MODELS:

Human Brain, Human Ear, Human Eye, Human Heart, Reproductive system Female, reproductive system male, Digestive system, encretory system, Animal Cell, Plant cell, Animal Meiosis, Animal Mitosis, Human Skelton

Beakers, Glass Rods, Funnels, Conical Flasks

CHEMICALS:

Leishman's strain, Safranine Solution, Acetocarmine Solution, Acetic Acid(glacial), Ammonium chloride, Hydrochloric acid, Methanol (Acetone free), Silica Gel Blue, Crystal violet, Ethyl alcohol, glycerol, Methanol, Petroleum Ether, schiff's Reagent, Iodine Solution .

GLASSWARES & OTHERS

Glass Slides, Foreceps, Petridishes, Filter Paper, Burner Stand, Cotton Bundles, Conical Flasks, Chromatographic Jars, Chromatographic sheets, Dissection Microscope, Thermometers, China Dish, Cover Slips, Test tube Stands and Test tubes, Measuring cylinders, Microscopes, Glass rods.

(d) Science

It is imperative for schools to have the latest and high quality science lab supplies these days. Science is different from any other subject. In order to understand its concepts, one has to look beyond the books and conventional classroom teaching. Effective teaching and learning of science involves seeing, handling, and manipulating real objects and materials. The knowledge that kids attain in classrooms would be ineffectual unless they actually observe the process and understand the relationship between action and reaction.

Effective teaching and learning of science involves a perpetual state of show and tell. Good schools combine classroom teaching with laboratory experiments to ensure that their students grasp each and every concept thoroughly. It is also believed that laboratory teaching and experiments that are being conducted there help encourage deep understanding in children. Children are able to retain the knowledge for longer when they see the experiments being performed in front of their eyes.

Science lab equipment allows students to interact directly with the data gathered. They get a first-hand learning experience by performing various experiments on their own. Students are made to use the models and understand different scientific theories and concepts.

It is imperative for schools to have the latest and high quality science lab supplies these days. Science is different from any other subject. In order to understand its concepts, one has to look beyond the books and conventional classroom teaching. Effective teaching and learning of science involves seeing, handling, and manipulating real objects and materials. The knowledge that kids attain in classrooms would be ineffectual unless they actually observe the process and understand the relationship between action and reaction.

(f) Music

Music

Other than entertainment, music has a very important role in our life. It develops our brain and the abilities associated with it. It is advantageous for developing skills in children and also in teaching them. Music therapy helps in healing dangerous and some chronic diseases. In our school students show their keen interest by participating in the different activities like in group dance, solo dance, dance drama, Bhajan singing, mime etc. Our school students also participate at district level and state level. Music have numbers of benefits. Students show that listening to music can benefit overall well being, help regulate emotions & create happiness and relaxation in everyday life. No doubt music make our life beautiful and successful.

**(g) Art and Craft**

‘Things of beauty is Joy forever’ very well said by some someone, beauty gives us joy but beauty not exist in nature only, artwork also gives us joy. An art is a technique to complete particular work in systematic manner. Everyone tries to improve or modify its basic knowledge. Thus art is a natural way to express his/her ideas and thoughts whatever a person has in his/her mind. An art work which is created by an artist using basic themes, different techniques, medium and methodology in FINEARTS. In Fine arts drawing, paintings are the ways to express feelings and desires on canvas or paper. In fine arts an artist uses magic of colours, different shades of colours, techniques to make his/her painting attractive and perfect. With the deep study and practice of this subject enables one to make his/her art alive.

This session our school has introduced fine arts (painting) subject for the students of class 11th for all streams. We have facility of well equipped and modern fine arts lab where around more than 50 students can sit. Well dedicated and qualified arts teachers also who with their timely guidance guide students at every path. Our school fine arts lab has all the drawing material required for making paintings etc. Our schools students also participated in so many drawing and arts activities and won prizes at so many levels which is the actual success of the subject.

**(h) Geography**

Geography lab. Plays a pivotal role in enriching geographical base of a student a necessary part of learning that exposes students to full spectrum of disciplinary sub fields. Physical, human and nature. Social geography as well as geographical techniques. The geography lab is well equipped with a series of maps, topography sheets and variety of survey equipments like tracing table, barometer, magnetic compass, electric globe, wind wane, CSs related to different topics are also kept in the lab. Geography lab specializes in the development of qualitative and research skill in school. According to Prof. L.Dudley stamp “Geography is description of the world and of its inhabitants.

In Geography we not only study about physical factors and environment but it also includes the studies of human activities carried out in relation to environment. It is the study of the changes and the development. These changes that occur are well reflected in the face of the nature, formation of human beings and animals. Geography is an earthly subject but a heavenly science. Physical geography studies the natural world.

(i) Commerce

Commerce

Commerce refers to the sum total of all those activities which are engaged in the removal of hindrances of persons, place, time, risk, finance and information in the exchange of commodities.. It can be divided into two parts i.e. Trade and Auxiliaries to trade.

Trade means buying and selling of goods or services with the purpose of getting profit. Those who performs these activities are called traders. It can be conducted on small ad well as large scale such as local level to International level. Auxiliaries to trade included all those activities which are undertaken to overcome the hurdles appearing in the way of Trade. Some of such activities are as under Transport and communication-producers and consumers are far away from each other geographically. This problem can be eliminated with the help of transportation.

Warehousing –usually these is a time gap between the production and consumption of products. Therefore the problem of storage arises which is resolved by the warehouses and godowns.

Insurance- Risk is the tail of the business element of risk is always there in business which is solved by Insurance companies by giving assurance of covering the business loses.

Banking – Problem of shortage of money is solved by Banks and various financial institutions.

Advertising- Advertising enhances the knowledge of customers about the product and its features. Thus it play a big role in boosting the sales of the products.

(i) Computer

Computer education in schools plays important role in students career development. Computer with the internet is the most powerful device that students can use to learn new skills and more advanced versions of current lessons. The uses of computers and internet are growing day by day at high speed. Almost all business, companies, schools are using computers for various official operations.

In our school we have a well maintained and equipped computer lab. There are about 60 computers in our computer lab. The students visit the lab regularly. In computer lab the students get the knowledge about MS Excel, MS Power Point etc. then they can use these applications in their studies like if students are taking mathematics classes they can use Microsoft Excel application to solve questions. They can also make slides in MS Power Point for their presentation. Also the students can search about various things on internet and it become easy for them to make projects, assignments etc.

So it is really important to teach students in schools about computers.
